A BAR ASSOCIATION To be Formed for the Purpose of Securing a Law Library.

A movement is on foot in Wheeling, as EXCITING MUCH PUBLIC COMMENT.

noted yesterday, to organize a County Bar Association. This has long been deemed desirable by lawyers here, but the present necessity for it is more and more apparent every day. For the purpose of effecting such an organization Mesers. W. P. Hubbard, H. M. Russell and B. S. Allison have such an organization Aresers, W.F. Hub-bard, H. M. Russell and B. S. Allison have consented to act as a committee. The main object of the porposed association is to secure and preserve a law library. The want of this was not so plainly felt while the State library was located here, but since its removal to Charleston there is not a day that its value is not real-ized by its absence. The Bar Association, it is suggested, might have the custody of the present rather limited, but very well selected library of law books belonging to the county, which would form a nucleus-for an extensive and complete collection of standard works and the most desirable reports, which could be gradually aug-mented by this plan into a comprehensive law library.

The project meets with general en-couragement among members of the bar, and a meeting of the profession will be called at an early day to take definite ac-tion.

meet Friday night next.

In the meantime there is a good deal of pertinent discussions and about as much that is not pertinent, concerning the two companies which are proposing to bring natural gas into the city. Many people seem to think there is some dispute as to the right of Council to grant the new company the right of way, though it has been repeatedly and expressly explained that the exclusive right granted to the West Virghia Company was with a proviso that this should not prohibit manufacurers from piping gas to their own factories The general expression is: "Get natural cas! We must have it."
